Dear Shareholder,

During the six-month fiscal period ending May 31, 2021, the gold price increased 7.8%, helping gold mining equities achieve solid returns over the period. The fiscal year started off with a strong rally in gold prices and gold mining equities. U.S. 10-year real interest rates continued to decline as inflation expectations increased more than nominal yields. The U.S. dollar resumed its downtrend, continuing what we view as a new secular bear market that started in March 2020.

ASA Gold and Precious Metals Limited (“ASA” or the “Company”) reported a net asset value (“NAV”) of \$28.31 per share on May 31, 2021, for a six-month total return of 17.8% versus a total return of 14.2% for the NYSE Arca Gold Miners Index.

The ASA share price closed at \$24.31, a total return of 22.2% for the six-month period ending May 31, 2021. The discount at which ASA’s shares traded in the market ended the first half of fiscal 2021 at 14.1%, a decrease from 17.2% at the beginning of the fiscal year. During this period, the discount averaged 14.6%, ranging between 11.6% and 18.1%. At the end of first half of the fiscal year, total net assets of ASA were \$546 million, an increase of \$82 million as compared to fiscal year-end 2020.

During the last six months, ASA distributed \$0.01 per share to shareholders, the same amount as the last six months of fiscal 2020.

Portfolio Performance and Attribution

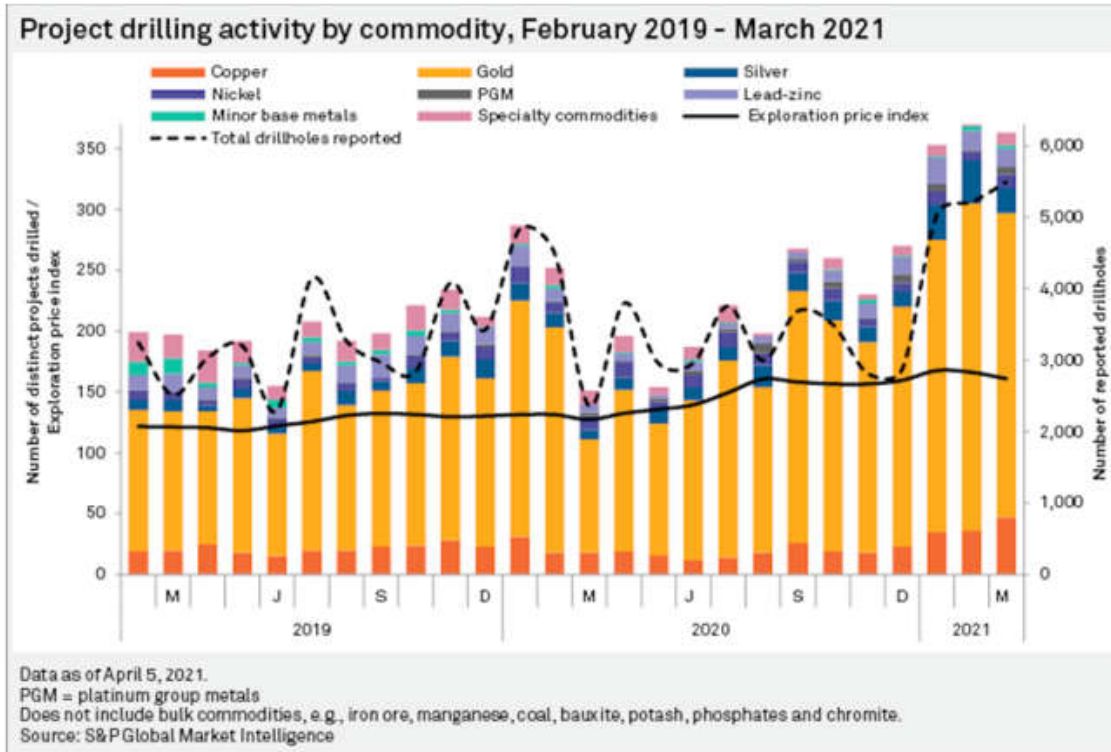

The move by the Fund into mid- and small- capitalization companies continues to be positive for portfolio performance. The primary driver of performance was our large allocation to small capitalization companies which had outsized returns. We continue to believe that the names we have invested in, not only may perform well in a positive gold market, but may have catalysts that will enhance performance and prove to have better leverage to the gold price than the larger capitalization stocks that the Fund historically invested in.

ATTRIBUTION BY MARKET CAPITALIZATION				
Rank	Market Capitalization	Average Weight		Attribution
1	Small	69.58%		15.14%
2	Mid	21.64%		2.60%
3	Cash	0.49%		0.00%
4	Large	8.29%		-0.04%
TOTAL		100.00%		17.69%

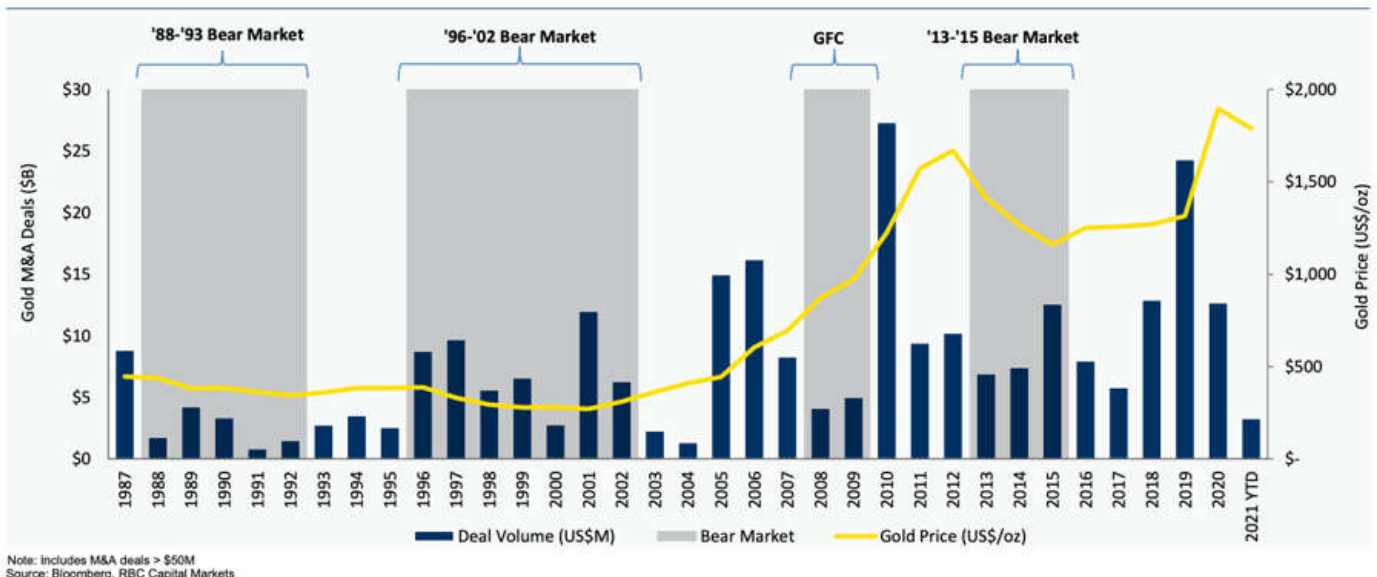

Broken down further, we continue to believe that the best value is in the smaller producers, exploration and development companies. They drove the majority of our performance over the first half of the fiscal year. The Fund has been investing with teams and in assets that we believe have the potential to be the next stage of growth for the mid and large cap companies, who have grossly underinvested in their future pipeline. In our view, these companies provide the most compelling reward-to-risk profile. Our equity investments are intended to be used to expand drill programs and build mines. Upside catalysts will likely continue throughout the year and generate interest from corporations and larger institutional investors.

ATTRIBUTION BY STAGE				
Rank	Stage	Average Weight		Attribution
1	Exploration	29.95%		9.34%
2	Small	17.88%		4.73%
3	Development	17.92%		1.77%
4	Large	22.02%		1.54%
5	Medium	10.95%		0.32%
6	Cash	0.49%		0.00%
7	Royalty	0.81%		-0.01%
TOTAL		100.00%		17.69%

As the chart below shows, exploration dollars have been increasing significantly in the last two years, and the Fund has been investing alongside these explorers. Typically, it takes up to six months from an equity-raise for a company to deploy the capital and generate and compile the data for a comprehensive release. The Fund has had success with this type of investment over the last two years. We have equity investments that have yet to release data and future data releases have the potential to be positive catalysts for appreciation.

As previously mentioned, lack of investment in exploration and development by the larger companies has created a scarcity of growth that, in our assessment, those companies will need to address. Exploration is the first stage in that process. Following successful exploration and development of new mines, it is our opinion that the next step is mergers and acquisitions. The chart below shows the lack of transactions since the last cycle. When you back out the large Barrick/Newmont JV in 2019, the paucity of transactions is even greater. The combination of improved operations, deleveraged balance sheets and increased free cash flows, positions most companies to improve their growth pipeline without taking on undue risk like in previous cycles. We believe that ASA is well positioned to benefit from any improvements in the deal pipeline.

As such, we at Merk Investments believe investors in ASA are well positioned to participate in a positive gold environment. We are always available to discuss the market and any questions that you have.

Peter Maletis, Portfolio Manager

Axel Merk, Chief Investment Officer
Merk Investments LLC

Forward-Looking Statements

This shareholder letter includes forward-looking statements, which involve known and unknown risks, uncertainties and other factors that may cause the actual results, levels of activity, performance or achievements of the Company, or industry results, to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. The Company's actual performance or results may differ from its beliefs, expectations, estimates, goals and projections, and consequently, investors should not rely on these forward-looking statements as predictions of future events. Forward-looking statements are not historical in nature and generally can be identified by words such as "believe," "anticipate," "estimate," "expect," "intend," "should," "may," "will," "seek," or similar expressions or their negative forms, or by references to strategy, plans, goals or intentions. The absence of these words or references does not mean that the statements are not forward-looking. The Company's performance or results can fluctuate from month to month depending on a variety of factors, a number of which are beyond the Company's control and/or are difficult to predict, including without limitation: the Company's investment decisions, the performance of the securities in its investment portfolio, economic, political, market and financial factors, and the prices of gold, platinum and other precious minerals that may fluctuate substantially over short periods of time. The Company may or may not revise, correct or update the forward-looking statements as a result of new information, future events or otherwise.

The Company concentrates its investments in the gold and precious minerals sector. This sector may be more volatile than other industries and may be affected by movements in commodity prices triggered by international monetary and political developments. The Company is a non-diversified fund and, as such, may invest in fewer investments than that of a diversified portfolio. The Company may invest in smaller-sized companies that may be more volatile and less liquid than larger more established companies. Investments in foreign securities, especially those in the emerging markets, may involve increased risk as well as exposure to currency fluctuations. Shares of closed-end funds frequently trade at a discount to net asset value. All performance information reflects past performance and is presented on a total return basis. Past performance is no guarantee of future results. Current performance may differ from the performance shown.

This shareholder letter does not constitute an offer to sell or solicitation of an offer to buy any securities.

Performance Returns (Unaudited)

Average Annual Total Returns

For the periods ended May 31, 2021

	1 Year	3 Year	5 Year	10 Year
ASA Gold and Precious Metals - NAV	50.09%	32.92%	16.25%	-1.10%
ASA Gold and Precious Metals - Share Price	59.04%	32.92%	15.88%	-1.56%
FTSE Gold Mines Index ⁽¹⁾	13.02%	22.41%	12.23%	-2.62%
NYSE ARCA Gold Miners Index (NTR) ⁽¹⁾	15.37%	21.74%	12.75%	7.10%

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For more current performance data, please visit <http://www.asaltd.com/investor-information/factsheets>.

The results shown in the table reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Company distributions or on the sale of the Company's common shares.

The investment return and market price will fluctuate and the Company's common shares may trade at prices above or below NAV. The Company's common shares, when sold, may be worth more or less than their original cost.

(1) The FTSE Gold Mines Total Return Index ("FTSE Gold Index") encompasses gold mining companies that have a sustainable, attributable gold production of at least 300,000 ounces a year and that derive 51% or more of their revenue from mined gold. Please note that the Index is unmanaged, and does not take into account any fees and expenses or any tax consequences of investing in the individual securities that it tracks and one cannot invest directly in the Index. The NYSE Arca Gold Miners Index (the "Index") is a net total return modified capitalization weighted index comprised of publicly traded companies primarily involved in the mining of gold and silver in locations around the world. The Company does not attempt to replicate the FTSE Gold Index or the Index. The FTSE Gold Index and Index do not necessarily reflect investments in other precious metals companies (e.g., silver, platinum, and diamonds) in which the Company may invest. Data about the performance of the FTSE Gold Index and Index are prepared or obtained by Management and include reinvestment of all income dividends and other distributions, if any. The Fund may invest in securities not included in the FTSE Gold Index or Index and does not invest in all securities included in the FTSE Gold Index or Index.

For more complete information about the Company, please call us directly at 1-800-432-3378, or visit the Company's website at www.asaltd.com.

Certain Investment Policies and Restrictions

The following is a summary of certain of the Company's investment policies and restrictions and is subject to the more complete statements contained in documents filed with the Securities and Exchange Commission.

The concentration of investments in a particular industry or group of industries. It is a fundamental policy (i.e., a policy that may be changed only by shareholder vote) of the Company that at least 80% of its total assets be (i) invested in common shares or securities convertible into common shares of companies engaged, directly or indirectly, in the exploration, mining or processing of gold, silver, platinum, diamonds or other precious minerals, (ii) held as bullion or other direct forms of gold, silver, platinum or other precious minerals, (iii) invested in instruments representing interests in gold, silver, platinum or other precious minerals such as certificates of deposit therefor, and/or (iv) invested in securities of investment companies, including exchange traded funds, or other securities that seek to replicate the price movement of gold, silver or platinum bullion. Compliance with the percentage limitation relating to the concentration of the Company's investments will be measured at the time of investment. If investment opportunities deemed by the Company to be attractive are not available in the types of securities referred to above, the Company may deviate from the investment policy and make temporary investments of unlimited amounts in securities issued by the U.S. Government, its agencies or instrumentalities or other high quality money market instruments.

The percentage of voting securities of any one issuer that the company may acquire. It is a non-fundamental policy (i.e., a policy that may be changed by the Board of Directors) of the Company that the Company shall not purchase a security if, at the time of purchase, more than 20% of the value of its total assets would be invested in securities of the issuer of such security.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of ASA Gold and Precious Metals Limited

Results of Interim Financial Information

We have reviewed the statement of assets and liabilities of ASA Gold and Precious Metals Limited (the "Company"), including the schedule of investments, as of May 31, 2021, and the related statement of operations for the six month period ended May 31, 2021, the statement of changes in net assets for the six month period ended May 31, 2021, the financial highlights for the six month period ended May 31, 2021, and the related notes (collectively referred to as the interim financial statements). Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the statement of changes in net assets for the year ended November 30, 2020 and the financial highlights for each year in the five year period ended November 30, 2020; and in our report dated January 21, 2021, we expressed an unqualified opinion on those financial statements and financial highlights.

Basis for Review Results

These interim financial statements are the responsibility of the Company's management. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

Notes to Financial Statements (Unaudited)

Six months ended May 31, 2021

1. Organization

ASA Gold and Precious Metals Limited (the “Company”) is a closed-end investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Company was initially organized as a public limited liability company in the Republic of South Africa in June 1958. On November 11, 2004, the Company’s shareholders approved a proposal to move the Company’s place of incorporation from the Republic of South Africa to the Commonwealth of Bermuda by reorganizing itself into an exempted limited liability company formed in Bermuda. The Company is registered with the Securities and Exchange Commission (the “SEC”) pursuant to an order under Section 7(d) of the 1940 Act.

2. Investment objective and strategy

The Company is a non-diversified, closed-end fund that seeks long-term capital appreciation primarily through investing in companies engaged in the exploration for, development of projects or mining of precious metals and minerals. The Company is managed by Merk Investments LLC (the “Adviser”).

It is a fundamental policy of the Company that at least 80% of its total assets must be (i) invested in common shares or securities convertible into common shares of companies engaged, directly or indirectly, in the exploration, mining or processing of gold, silver, platinum, diamonds or other precious minerals, (ii) held as bullion or other direct forms of gold, silver, platinum or other precious minerals, (iii) invested in instruments representing interests in gold, silver, platinum or other precious minerals such as certificates of deposit therefor, and/or (iv) invested in securities of investment companies, including exchange traded funds, or other securities that seek to replicate the price movement of gold, silver or platinum bullion.

The Company employs bottom-up fundamental analysis and relies on detailed primary research including meetings with company executives, site visits to key operating assets, and proprietary financial analysis in making its investment decisions.

3. Summary of significant accounting policies

The following is a summary of the significant accounting policies:

A. Security valuation

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the “NYSE”) on the date for which the valuation is being made (the “Valuation Time”). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available. Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets. Shares of non-exchange traded open-end mutual funds are valued at net asset value (“NAV”). To value its warrants, the Company’s valuation committee typically utilizes the Black-Scholes model using the listed price for the underlying common shares. The valuation is a combination of value of the stock price less the exercise price, plus some value related to the volatility of the stock over the remaining time period prior to expiration.

Securities for which current market quotations are not readily available are valued at their fair value as determined in accordance with procedures approved by the Company’s Board of Directors. If a security is valued at a “fair value,” that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security’s fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

The difference between cost and market value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

Notes to Financial Statements (Unaudited) (continued)

Six months ended May 31, 2021

3. Summary of significant accounting policies (continued)

B. Restricted securities

At May 31, 2021, the Company held investments in restricted securities of 0.34% of net assets valued in accordance with procedures approved by the Company's Board of Directors as follows:

<u>Shares</u>	<u>Cost</u>	<u>Issuer</u>	<u>Value per Unit</u>	<u>Value</u>	<u>Acquisition Date</u>
1,071,400	\$2,142,800	Americas Gold & Silver Corp.	\$1.740	\$1,864,236	5/7/20

C. Fair value measurement

In accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for identical instruments on an inactive market, prices for similar investments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3 – Unobservable inputs for the assets or liability to the extent that relevant observable inputs are not available, representing the Company's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Notes to Financial Statements (Unaudited) (continued)

Gold mining, exploration, development and royalty companies	-	-	13,896,458	13,896,458
Silver mining, exploration, development and royalty companies	-	-	3,161,365	3,161,365
Money Market Fund	941,963	-	-	941,963
Total Investments	<u>\$ 520,286,629</u>	<u>\$ -</u>	<u>\$ 24,452,846</u>	<u>\$ 544,739,475</u>

(1) See schedule of investments for country classifications.

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value.

	<u>Common Stock</u>	<u>Rights</u>	<u>Warrants</u>
	<u>- Canada</u>	<u>- Canada</u>	<u>- Canada</u>
Balance November 30, 2020	\$ 770,001	\$ 173,123	\$ 11,181,970
Purchases	-	-	237,562
Sales	-	-	(130,555)
Realized gain	-	-	17,174
Transfers out	(770,001)	-	-
Net change in unrealized appreciation (depreciation)	-	24,095	12,949,477
Balance May 31, 2021	<u>\$ -</u>	<u>\$ 197,218</u>	<u>\$ 24,255,628</u>
Net change in unrealized appreciation (depreciation) from investments held as of May 31, 2021*	<u>\$ -</u>	<u>\$ 24,095</u>	<u>\$ 12,949,477</u>

* The change in unrealized appreciation/(depreciation) is included in net change in unrealized appreciation/(depreciation) of investments in the accompanying Statement of Operations.

Notes to Financial Statements (Unaudited) (continued)

Six months ended May 31, 2021

3. Summary of significant accounting policies (continued)

C. Fair value measurement (continued)

Significant unobservable inputs developed by the Valuation Committee (“Valuation Committee”) for Level 3 investments held at May 31, 2021 are as follows:

<u>Asset Categories</u>	<u>Fair Value</u>	<u>Valuation Technique(s)</u>	<u>Unobservable Input</u>	<u>Range (Weighted Average)</u>
Rights ¹ - Canada	197,218	Market transaction	Discount	70% (70%)
Warrants ² - Canada	24,255,628	Black Scholes Method	Volatility	20% - 50% (36%)

¹ Fair valued rights are valued based on the specifics of the rights at a discount to the market price of the underlying security.

² Warrants are priced based on the Black Scholes Method; the key input to this method is modeled volatility of the investment; the lower the modeled volatility, the lower the valuation of the warrant.

D. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange reported by independent data providers. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The portion of the results arising from changes in the exchange rates and the portion due to fluctuations arising from changes in the market prices of securities are not isolated. The resulting net foreign currency gain or loss is included on the Statements of Operations. Realized foreign currency gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, fluctuation in exchange rates between the initial purchase date and subsequent sale date on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Company’s books and the U.S. dollar equivalent of the amounts actually received or paid.

E. Securities Transactions and Investment Income

During the six months ended May 31, 2021, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$40,464,873 and \$36,356,861, respectively.

Dividend income is recorded on the ex-dividend date, net of withholding taxes or ADR fees, if any. Interest income is recognized on the accrual basis.

F. Dividends to Shareholders

Dividends to shareholders are recorded on the ex-dividend date. The reporting for financial statement purposes of dividends paid from net investment income and/or net realized gains may differ from their ultimate reporting for U.S. federal income tax purposes, primarily because of the separate line item reporting for financial statement purposes of foreign exchange gains or losses.

G. Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is management’s opinion that all adjustments necessary for a fair statement of the results of the interim periods presented have been made. All adjustments are of a normal recurring nature.

H. Basis of Presentation

The financial statements are presented in U.S. dollars. The Company is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification, Topic 946 “Financial Services - Investment Companies”.

I. Income Taxes

In accordance with U.S. GAAP requirements regarding accounting for uncertainties on income taxes, management has analyzed the Company’s tax positions taken on federal and state income tax returns, as applicable, for all open tax years (2017-2020). As of May 31, 2021, the Company has not recorded any unrecognized tax benefits. The Company’s policy, if it had unrecognized benefits, is to recognize accrued interest and penalties in operating expenses.

Notes to Financial Statements (Unaudited) (continued)

Six months ended May 31, 2021

4. Tax status of the Company

The Company is a “passive foreign investment company” (“PFIC”) for U.S. federal income tax purposes and is not subject to Bermuda tax as an exempted limited liability company organized under the laws of Bermuda. Nor is the Company generally subject to U.S. federal income tax, since it is a non-U.S. corporation whose only business activity in the United States is trading in stocks or securities for its own account; under the U.S. federal tax law that activity does not constitute engaging in the conduct of a trade or business within the United States, even if its principal office is located therein. As a result, its gross income is not subject to U.S. federal income tax, though certain types of income it earns from U.S. sources (such as dividends of U.S. payors) are subject to U.S. federal withholding tax.

5. Fees and Expenses and Other Transactions with Affiliates

Investment Adviser – Merk Investments LLC (the “Adviser”) is the investment adviser to the Company. Pursuant to an investment advisory agreement, the Adviser receives an advisory fee, payable monthly, from the Company at an annual rate of 0.70% of the Company’s average daily net assets.

Effective December 1, 2020, the Adviser voluntarily agreed to waive a portion of its advisory fee, equal to an annual rate of 0.05% of the Company’s net assets exceeding \$300 million, and an additional 0.10% of the Company’s net assets exceeding \$500 million. The Adviser waived \$48,799 for the six months ended May 31, 2021.

Other Service Providers – Apex US Holdings LLC (d/b/a Apex Fund Services) (“Apex”) provides fund accounting, fund administration and compliance services to the Company. The fees related to these services are included in fund services fees within the Statement of Operations. Apex also provides certain shareholder report production and EDGAR conversion and filing services. Pursuant to an Apex services agreement, the Company pays Apex customary fees for its services. Apex provides a Principal Financial Officer, as well as certain additional compliance support functions.

Foreside Fund Services, LLC provides a Chief Compliance Officer to the Company.

6. Exemptive order

The Company is a closed-end investment company and operates pursuant to an exemptive order issued by the Securities and Exchange Commission (the “SEC”) pursuant to Section 7(d) of the 1940 Act (the “Order”). The Order is conditioned upon, among other things, the Company complying with certain requirements relating to the custody of assets and settlement of securities transactions outside of the United States different than those required of other registered investment companies. These conditions make it more difficult for the Company to implement a flexible investment strategy and to fully achieve its desired portfolio diversification than if it were not subject to such requirements.

7. Retirement plans

The Company has recorded a liability for retirement benefits due to retired directors. The liability for these benefits at May 31, 2021 was \$352,300. A director whose first election to the Board of Directors was prior to January 1, 2008 qualifies to receive retirement benefits if he has served the Company (and any of its predecessors) for at least twelve years prior to retirement. Directors first elected on or after January 1, 2008 are not eligible to participate in the plan.

8. Risks

The following discussion summarizes certain (but not all) of the principal risks associated with investing in the Company. The Company may be subject to other risks in addition to those identified below, such as the risks associated with its tax status as a PFIC (see Note 4) and its reliance on an SEC exemptive order (see Note 6). The risk factors set forth in the following are described in no particular order and the order of the risk factors is not necessarily indicative of significance. The relative importance of, or potential exposure as a result of, each of these risks will vary based on market and other investment-specific considerations.

A. Concentration Risk

The Company invests at least 80% of its total assets in securities of companies engaged, directly or indirectly, in the exploration, mining or processing of gold or other precious minerals. The Company currently is invested in a limited number of securities and thus holds large positions in certain securities. Because the Company’s investments are concentrated in a limited number of securities of companies involved in the holding or mining of gold and other precious minerals and related activities, the net asset value of the Company may be subject to greater volatility than that of a more broadly diversified investment company.

Notes to Financial Statements (Unaudited) (continued)

Six months ended May 31, 2021

8. Risks (continued)

B. Gold and Precious Metals/Minerals Risk

The Company invests in securities that typically respond to changes in the price of gold and other precious metals, which can be influenced by a variety of global economic, financial, and political factors; increased environmental and labor costs in mining; and changes in laws relating to mining or gold production or sales; and the price may fluctuate substantially over short periods of time.

C. Foreign Securities Risk/Emerging Markets Risk

The Company's returns and share prices may be affected to a large degree by several factors, including fluctuations in currency exchange rates; political, social or economic instability; the rule of law with respect to the recognition and protection of property rights; and less stringent accounting, disclosure and financial reporting requirements in a particular country. These risks are generally intensified in emerging markets. The Company's share prices will reflect the movements of the different stock markets in which it is invested and the currencies in which its investments are denominated.

D. Geographic Investment Risk

To the extent that the Company invests a significant portion of its assets in the securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region. As of May 31, 2021, a significant portion of the Company's assets consisted of securities of Canadian issuers.

Canada Risk. The Canadian economy is susceptible to adverse changes in certain commodities markets, including those related to the natural resources and mining industries. It is also heavily dependent on trading with key partners. Any adverse events that affect Canada's major industries may have a negative impact on the overall Canadian economy and the Company's investments in Canadian issuers.

E. Junior and Intermediate Mining Companies Risk

The securities of junior and intermediate exploration and development, gold and silver mining companies, which are often more speculative in nature, tend to be less liquid and more volatile in price than securities of larger companies. As of May 31, 2021, a significant portion of the Company's assets consisted of securities of junior and intermediate mining company issuers.

F. Private Placement Risk

Privately issued securities, including those which may be sold only in accordance with Rule 144A under the Securities Act of 1933, as amended, are restricted securities that are not registered with the U.S. Securities and Exchange Commission. The liquidity of the market for specific privately issued securities may vary. Accordingly, the Company may not be able to redeem or resell its interests in a privately issued security at an advantageous time or at an advantageous price, which may result in a loss to the Company.

G. Restricted Security Risk

The Company may make direct equity investments in securities that are subject to contractual and regulatory restrictions on transfer. These investments may involve a high degree of business and financial risk. The restrictions on transfer may cause the Company to hold a security at a time when it may be beneficial to liquidate the security, and the security could decline significantly in value before the Company could liquidate the security.

H. Depositary Receipts Risk

Depositary receipts risks include, but are not limited to, fluctuations in foreign currencies and foreign investment risks, such as political and financial instability, less liquidity and greater volatility, lack of uniform accounting auditing and financial reporting standards and increased price volatility. In addition, depositary receipts may not track the price of the underlying foreign securities, and their value may change materially at times when the U.S. markets are not open for trading. Investments in unsponsored depositary receipts may be subject to additional risks.

I. Warrants Risk

Warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security. Prices of warrants do not necessarily move, however, in tandem with prices of the underlying securities, particularly for shorter periods of time, and, therefore, may be considered speculative investments. If a warrant held by the Company were not exercised by the date of its expiration, the Company would incur a loss in the amount of the cost of the warrant.

Notes to Financial Statements (Unaudited) (continued)

Six months ended May 31, 2021

8. Risks (continued)

J. Market Discount from Net Asset Value

Shares of closed-end investment companies such as the Company frequently trade at a discount from their net asset value. The Company cannot predict whether its common shares will trade at, below or above net asset value. This characteristic is a risk separate and distinct from the risk that the Company's net asset value could decrease as a result of investment activities.

K. Valuation Risk

The Company may not be able to sell an investment at the price at which the Company has valued the investment. Such differences could be significant, particularly for illiquid securities and securities that trade in relatively thin markets and/or markets that experience extreme volatility. If market or other conditions make it difficult to value some investments, SEC rules and applicable accounting protocols may require the Company to value these investments using more subjective methods, known as fair value methodologies. Using fair value methodologies to price investments may result in a value that is different from an investment's most recent price and from the prices used by other funds to calculate their NAVs. The Company's ability to value its investments in an accurate and timely manner may be impacted by technological issues and/or errors by third party service providers, such as pricing services or accounting agents.

L. Market Events Risk

Geopolitical events, including pandemics (such as COVID-19), may destabilize various countries' economies and markets, which may experience increased volatility and reduced liquidity. Policy changes by the Federal Reserve and/or other government actors could similarly cause increased volatility in financial markets. Trade barriers and other protectionist trade policies (including those in the U.S.) may also result in market turbulence. Market volatility and reductions in market liquidity may negatively affect issuers worldwide, including issuers in which the Company invests. Under such circumstances, the Company may have difficulty liquidating portfolio holdings, particularly at favorable prices. Also, the Company may be required to transact in contemporaneous markets, even if they are volatile and/or illiquid, which may negatively impact the Company's net asset value.

The global outbreak of COVID-19 virus has caused negative effects on many companies, sectors, countries, regions, and financial markets in general, and uncertainty exists as to its long-term implications. The effects of the pandemic may adversely impact the Company's assets and performance. The financial statements do not include any adjustments that might result from the outcome of this uncertainty

9. Indemnifications

In the ordinary course of business, the Company enters into contracts that contain a variety of indemnification provisions. The Company's maximum exposure under these arrangements is unknown.

10. Operating lease commitment

In June 2017, the Company entered into a three-year operating lease agreement, commencing March 1, 2018, in San Mateo, CA for approximately 2,500 square feet to be used as office space for its employees. The lease was terminated as of February 28, 2021.

11. Share repurchase

The Company may from time to time purchase its common shares at a discount to NAV on the open market in such amounts and at such prices as the Company may deem advisable.

The Company had 19,289,905 shares outstanding as of May 31, 2021. There were no repurchases during the six months ended May 31, 2021.

12. Subsequent events

In accordance with U.S. GAAP provisions, management has evaluated the possibility of subsequent events existing in the Company's financial statements through the date the financial statements were issued.

(1) Per share amounts from operations have been calculated using the average shares method.

(2) Total investment return is calculated assuming a purchase of shares at the current market price at close the day before and a sale at the current market price on the last day of each period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Company's dividend reinvestment plan.

(3) Not annualized.

(4) Total investment return is calculated assuming a purchase of shares at the current net asset value at close the day before and a sale at the current net asset value on the last day of each period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Company's dividend reinvestment plan.

(5) Reflects the expense ratio excluding any waivers.

(6) Annualized.

Certain Tax Information for U.S. Shareholders

The Company is a “passive foreign investment company” (“PFIC”) for U.S. federal income tax purposes. In view of this, U.S. investors holding common shares in taxable accounts are strongly urged to review the important tax information regarding the consequences of an investment in the common shares of the Company, which may be found at www.asaltd.com under “Investor Information | Taxpayer Information - PFIC”. **Due to the complexity and potentially adverse effect of the applicable tax rules, U.S. shareholders are strongly urged to consult their own tax advisors concerning the impact of these rules on their investment in the Company and on their individual situations, and any additional informational filing requirements.**

Dividend Reinvestment and Stock Purchase Plan

Computershare Trust Company, N.A. (“Computershare”) has been authorized by the Company to offer and administer the Computershare Investment Plan, a dividend reinvestment and stock purchase plan (“CIP”) to shareholders as well as new investors or non-shareholders. Shareholders and new investors may elect to participate in the CIP by signing an enrollment form or by going to www.computershare.com/investor and following the instructions. New investors or non-shareholders must include a minimum initial investment of at least \$500. Computershare as agent will apply to the purchase of common shares of the Company in the open market (i) all cash dividends (after deduction of the service charge described below) that become payable to such participant on the Company’s shares (including shares registered in his or her name and shares accumulated under the CIP) and (ii) any optional cash purchases (\$50 minimum, subject to an annual maximum of \$250,000) received from such participant.

Computershare may combine CIP participant purchase requests with other purchase requests received from other CIP participants and may submit the combined purchase requests in bulk to Computershare’s broker as a single purchase order. Purchase requests may be combined, at Computershare’s discretion, according to one or more factors such as purchase type (e.g., dividend reinvestment, one-time ACH, check, etc.), request date, or request delivery method (e.g., online, regular mail, etc.). Computershare will submit bulk purchase orders to its broker as and when required under the terms of the CIP. Computershare’s broker may execute each bulk purchase order in one or more transactions over one or more days, depending on market conditions. Each participant whose purchase request is included in each bulk purchase order will receive the weighted average market price of all shares purchased by Computershare’s broker for such order. Any stock dividends or split shares distributed on shares held in the CIP will be credited to the participant’s account.

A one-time \$10 enrollment fee to establish a new account for a new investor or non-shareholder will be deducted from the purchase amount. For each participant, each dividend reinvestment will entail a transaction fee of 5% of the amount reinvested, up to a maximum of \$3 plus \$0.03 per share purchased. Each optional cash purchase by check or one-time online bank debit will entail a transaction fee of \$5 plus \$0.03 per share purchased. If a participant has funds automatically deducted monthly from his or her savings or checking account, for each debit the transaction fee is \$2.50 plus \$0.03 per share purchased. Fees will be deducted from the purchase amount. Each batch order sale will entail a transaction fee of \$15 plus \$0.12 per share sold. Each market order sale will entail a transaction fee of \$25 plus \$0.12 per share sold. Fees are deducted from the proceeds derived from the sale. All per share fees include any brokerage commissions Computershare is required to pay. Any fractional share will be rounded up to a whole share for purposes of calculating the per share fee. Additional fees are charged by Computershare for specific shareholder requests such as copies of account statements for prior years (\$10 per year requested) and a returned check and ACH reject fee of \$25.

Participation in the CIP may be terminated by a participant at any time by written, telephone or Internet instructions to Computershare. Upon termination, a participant will receive a certificate for the whole number of shares credited to his or her account, unless he or she requests the sale of all or part of such shares. Dividends reinvested by a shareholder under the CIP will generally be treated for U.S. federal income tax purposes in the same manner as dividends paid to such shareholder in cash. See “Certain Tax Information for U.S. Shareholders” for more information regarding tax consequences of an investment in shares of the Company, including the effect of the Company’s status as a PFIC. The amount of the service charge is deductible for U.S. federal income tax purposes, subject to limitations.

To participate in the CIP, shareholders may not hold their shares in a “street name” brokerage account.

Additional information regarding the CIP may be obtained from Computershare, P.O. Box 505000, Louisville, KY 40233-5000. Information may also be obtained on the Internet at www.computershare.com/investor or by calling Computershare’s Telephone Response Center at (800) 317-4445 between 9:00 a.m. and 5:00 p.m., Eastern time, Monday through Friday.

Privacy Notice

The Company is committed to protecting the financial privacy of its shareholders.

We do not share any nonpublic, personal information that we may collect about shareholders with anyone, including our affiliates, except to service and administer shareholders' share accounts, to process transactions, to comply with shareholders' requests of legal requirements or for other limited purposes permitted by law. For example, the Company may disclose a shareholder's name, address, social security number and the number of shares owned to its administrator, transfer agent or other service providers in order to provide the shareholder with proxy statements, tax reporting forms, annual reports or other information about the Company. This policy applies to all of the Company's shareholders and former shareholders.

We keep nonpublic personal information in a secure environment. We restrict access to nonpublic personal information to Company employees, agents and service providers who have a need to know the information based on their role in servicing or administering shareholders' accounts. The Company also maintains physical, electronic and procedural safeguards to protect the confidentiality of nonpublic personal information.

Board Consideration of Investment Advisory Agreement

At its March 18-19, 2021 meeting, the Board of Directors (the "Board") of ASA Gold and Precious Metals Limited ("ASA" or the "Company"), consisting of Directors who are not "interested persons" of the Company or of Merk Investments LLC ("Merk" or the "Adviser") ("Independent Directors"), considered and approved the continuation of the Investment Advisory Agreement ("Advisory Agreement") between the Company and Merk. In preparation for its deliberations, the Board requested and reviewed extensive materials from the Adviser. The Independent Directors received a memorandum reviewing the legal standards for their consideration of the proposed continuation of the Advisory Agreement from counsel that is experienced in Investment Company Act of 1940 matters and that is independent of Merk ("Independent Counsel") and discussed these standards and the material submitted by the Adviser with Independent Counsel.

The Board considered the broad range of information that is provided to the Board (including its Nominating, Audit and Ethics Committee) at meetings throughout the year, including reports on investment performance based on net asset value and common stock market prices, portfolio information and risks, information regarding share prices relative to net asset values (discounts and/or premiums), as well as periodic reports on, among other matters, pricing and valuation, quality and cost of portfolio trade execution, and compliance, all of which the Board deemed relevant to its evaluation of the Advisory Agreement and its continuation.

The Board recognized the Company's unique structure as a Bermuda corporation that operates as a closed-end investment company pursuant to an exemptive order issued by the Securities and Exchange Commission pursuant to Section 7(d) of the 1940 Act, which requires, among other things, that the Company comply with certain requirements relating to the custody of assets and settlement of securities transactions outside of the United States that are different than those required of other registered investment companies. The Board noted that the exemptive order imposes tasks and obligations on the Company, the Board and its service providers beyond those required of registered investment companies organized within the United States. The Board considered the Company's transition, in 2019, to an external management structure during the initial period of the Advisory Agreement, noting its continued satisfaction with that structure, along with Merk's work during the transition as well as Merk's substantial re-positioning of the Company's portfolio after assuming responsibility as adviser.

The Independent Directors evaluated the following factors in connection with their consideration and approval of the Advisory Agreement: (1) the nature, extent, and quality of the services to be provided by Merk; (2) the performance of ASA compared to a relevant market index and a peer group of investment companies; (3) the costs of the services provided, including a comparison of advisory fees to those of similar funds, and the profits realized by Merk; (4) the extent to which economies of scale might be realized as ASA grows, including whether fee levels reflect any such potential economies of scale for the benefit of investors in ASA; and (5) any indirect benefits to Merk attributable to its relationship with ASA. In their deliberations, the Independent Directors did not identify any particular information or factor that was all-important or controlling, and each Independent Director may have attributed different weights to the various factors.

Nature, Extent, and Quality of the Services and Performance

Following discussions with Merk, the Independent Directors determined the firm to be capable and qualified to continue to perform the services under the Advisory Agreement and that the services provided by Merk were of high quality. The Independent Directors considered that after the Board's initial approval of the Advisory Agreement in December 2018 (and before shareholder approval of the Advisory Agreement in March 2019) Merk hired additional professionals, consisting of an experienced portfolio manager and a staff member of previous management, and worked diligently and

consistently on behalf of the Company throughout the transition process of the Company from its previous internally managed structure through the present.

The Independent Directors considered the asset size of the Company relative to Merk's other clients, and that Merk has a significant incentive to work proactively and effectively with ASA. They also observed that the Adviser had consistently engaged in informative reporting to the Independent Directors, and its continued efforts to support the Company's website and to provide information to shareholders.

The Board considered that Merk assumes significant ongoing entrepreneurial and business risks as the investment adviser and sponsor to the Company, for which it is entitled to reasonable compensation. The Board evaluated Merk's activities under its contractual obligation to oversee the Company's various outside service providers and considered Merk's ongoing development of its own infrastructure and information technology to support the Company through, among other things, business continuity planning, positive adaptation of its compliance program to support the Company and risk management. The Board particularly noted Merk's general responsiveness to the Board and its seamless implementation of its business continuity plan in response to the COVID-19 pandemic. The Board considered the general structure of portfolio manager compensation and whether this structure provides appropriate incentives to act in the best interests of the Company. In addition, the Board noted that Merk actively monitors the discounts from net asset value per share at which the Company's common shares trade and makes continuing efforts to provide information about the Company and the investment environment to shareholders and potential investors that might encourage interest in the Company.

The Board considered information regarding the Company's performance on a net asset value and market price basis, including net asset value relative to the performance of peer investment companies and market benchmark indices, as well as relative alpha and risk-adjusted performance based on the peer group and market benchmark indices presented by the Adviser. The Board reviewed Company performance on a calendar year and cumulative basis from the time the Adviser began managing the Company as well as performance data for the three-, five-, and ten-year cumulative periods through December 31, 2020. The Independent Directors considered that there are no similar gold closed-end funds and that all of the peer funds are open-end mutual funds, but that the peer group information was relevant to their discussion. They noted the above average performance of the Company relative to the peer group since the Adviser assumed its role in the spring of 2019, and discussed the Adviser's investment strategy that included investing in junior and exploration small and mid-cap issuers, and that this strategy was instrumental in meeting the Company's investment objective of long-term capital appreciation.

Costs of Providing Services and Profitability

The Independent Directors noted that, unlike the funds in the peer group, the Company is a passive foreign investment company and closed-end fund operating pursuant to exemptive relief. The Independent Directors determined that the peer group information was nonetheless relevant to their considerations and useful in evaluating the Company from both an investment and expense perspective. They observed that Merk had submitted information about the fees paid by its other clients and stated that its advisory services to the Company involved distinct investment objectives, policies and strategies, concluding that the fees paid by other Merk clients were not comparable to those paid by the Company or relevant, other than to provide information about the Adviser. They considered that the Adviser had put in place a voluntary fee waiver effective December 1, 2020, which the Adviser had agreed to continue until the next contract renewal in 2022. They noted that the advisory fee paid by the Company is slightly below the peer group's average, while acknowledging that the peers have different fees and expenses and asset flows.

The Independent Directors reviewed profitability analyses and related information provided by the Adviser in connection with the provision of services to the Company. They recognized (i) the challenges of allocating the Adviser's costs, (ii) that there is no single uniform methodology regarding the allocation of firm-wide expenses within the asset management industry for determining profitability and (iii) that different reasonable methodologies can lead to different profit and loss results. The Board noted that the Adviser was operating in a highly competitive business environment and is entitled to earn profits for its services, concluding that the Adviser was not in a position to derive excessive profits from the Company and that the Adviser's reported level of profitability was not unreasonable.

Economies of Scale

The Board evaluated whether there were apparent or anticipated economies of scale in relation to the services Merk provides to the Company and noted that there is little expectation that economies of scale could be achieved by Merk with regard to the Company, given its closed-end structure, costs and size.

Other Benefits

The Independent Directors considered other ways that Merk could benefit from its relationship with the Company and noted that other than the advisory fee, there was no compensation or soft dollar received or receivable by Merk from the Company, concluding that Merk derived no special or indirect benefits from the Company.

Conclusion

In approving the continuation of the Advisory Agreement, the Board concluded that, in its business judgment, the terms of the Advisory Agreement are fair and reasonable to the Company and that approval of the continuation of the Advisory Agreement is in the best interests of the Company and its shareholders.

Results of the proposals presented at the annual general meeting of shareholders

The following votes were cast at the Annual General Meeting of Shareholders held on March 19, 2021:

Election of Directors

	For	Against	Abstain
Anthony Artabane	12,877,095	229,301	99,517
William Donovan	12,865,705	242,555	97,653
Bruce Hansen	12,782,645	269,849	153,419
Mary Joan Hoene	12,851,498	263,494	90,921

Appointment of Independent Registered Public Accounting Firm

	For	Against	Abstain
Tait, Weller & Baker LLP	12,870,230	241,903	93,780

Form N-PX/Proxy Voting

The company files a list of its proxy votes with the SEC for the period of July 1 - June 30 of each year on Form N-PX. The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and information regarding how the Company voted proxies relating to portfolio securities during the most recent twelve month period are available on the Company's website at www.asaltd.com and on the SEC's website at www.sec.gov. A written copy of the Company's policies and procedures is available without charge, upon request, by calling (800) 432-3378.

Form N-PORT/Portfolio Holdings

The Company files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT. The Company's Forms N-PORT are available on the SEC's website at www.sec.gov. The Company's Forms N-PORT also may be reviewed and copied at the Reference Room in Washington, D.C.; information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The schedule of portfolio holdings on Form N-PORT also is included in the Company's financial statements for the first and third quarters of each fiscal year which are available on the Company's website at www.asaltd.com.

Share Repurchase

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Company is authorized to purchase its common shares in the open market if the discount to net asset value exceeds a certain threshold as determined by the Board of Directors from time to time. The Company may purchase its common shares in such amounts and at such prices as the Company may deem advisable. There can be no assurance that such action will reduce the discount. There were no repurchases during the six months ended May 31, 2021. The Company had 19,289,905 shares outstanding on May 31, 2021.
