Notes to Financial Statements (Unaudited)

Three months ended February 28, 2015 and 2014

1. Organization

ASA Gold and Precious Metals Limited (the "Company") is a closed-end investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), and was organized as an exempted limited liability company under the laws of Bermuda.

2. Summary of significant accounting policies

The following is a summary of the significant accounting policies:

A. Security valuation

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the "NYSE") or the Toronto Stock Exchange (the "TSX"), whichever is later, on the date for which the valuation is being made (the "Valuation Time"). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available. Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets.

Securities for which current market quotations are not readily available are valued at their fair value as determined in good faith by, or in accordance with procedures approved by, the Company's Board of Directors. If a security is valued at a "fair value", that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

Where the Company holds securities listed on foreign stock exchanges and American Depository Receipts ("ADRs") representing these securities are actively traded in U.S. markets, the securities normally are fair valued based on the last reported sales price of the ADRs.

The difference between cost and market value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

B. Restricted securities

At February 28, 2015 and February 28, 2014, the Company held investments in restricted securities of 3.30% and 0.55% of net assets, respectively, valued in accordance with procedures approved by the Company's Board of Directors as follows:

Restricted Securities February 28, 2015

C. Fair value measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 unadjusted quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of February 28, 2015 and February 28, 2014 in valuing the Company's investments at fair value:

D. Cash and Cash Equivalents

The Company considers all money market and all highly liquid temporary cash investments purchased with an original maturity of less than three months to be cash equivalents. The majority of the Company's cash and cash equivalents at February 28, 2015 and 2014 consisted of overnight deposit of excess funds in a commercial paper sweep instrument issued by JPMorgan Chase & Co.

E. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange reported one hour after the Valuation Time. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Company separately reports the effect of changes in foreign exchange rates from changes in market prices of securities held. The resulting net foreign currency gain or loss is included on the Statements of Operations. Realized foreign currency gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, fluctuation in exchange rates between the initial purchase date and subsequent sale date on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Company's books and the U.S. dollar equivalent of the amounts actually received or paid.

Three months ended February 28, 2015 and 2014

F. Securities Transactions and Investment Income

During the three months ended February 28, 2015, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$3,819,768 and \$5,399,572, respectively. During the three months ended February 28, 2014, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$4,783,862 and \$1,351,000, respectively.

Dividend income is recorded on the ex-dividend date, net of withholding taxes or ADR fees, if any. Interest income is recognized on the accrual basis.

G. Dividends to Shareholders

Dividends to shareholders are recorded on the ex-dividend date. The reporting for financial statement purposes of dividends paid from net investment income or net realized gains may differ from their ultimate reporting for U.S. federal income tax purposes. The differences are caused primarily by the separate line item reporting for financial statement purposes of foreign exchange gains or losses.

H. Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

I. Basis of Presentation

The financial statements are presented in U.S. dollars.

J. Income Taxes

In accordance with U.S. GAAP requirements regarding accounting for uncertainties on income taxes, management has analyzed the Company's tax positions taken on federal and state income tax returns, as applicable, for all open tax years (2011 - 2014). As of February 28, 2015 and February 28, 2014, the Company has not recorded any unrecognized tax benefits. The Company's policy, if it had unrecognized benefits, is to recognize accrued interest and penalties in operating expenses.

3. Tax status of the Company

The Company is a passive foreign investment company (PFIC) and is not subject to Bermuda tax as an exempted limited liability company organized under the laws of Bermuda. Nor is the Company generally subject to U.S. federal income tax, since it is a non-U.S. corporation whose only business activities in the United States is trading in stocks or securities for its own account; under the U.S. federal tax law that activity does not constitute a trade or business within the United States, even if its principal office is located therein. As a result, its gross income is not subject to U.S. federal income tax, though certain types of income it earns from U.S. sources (such as dividends of U.S. payors) are subject to withholding tax.

4. Exemptive order

The Company is a closed-end investment company and operates pursuant to an exemptive order issued by the SEC pursuant to Section 7(d) of the 1940 Act (the "Order"). The Order was originally conditioned upon, among other things, the Company complying with certain requirements relating to the custody of assets and settlement of securities transactions outside of the United States different than those required of other registered investment companies. These conditions made it more difficult for the Company to implement a flexible investment strategy and to fully achieve its desired portfolio diversification than if it were not subject to such requirements. On June 18, 2013, the SEC issued an order that amended certain conditions contained in the Company's then-existing exemptive order, most notably, the Company's ability to hold assets and settle trades in Canada, Australia, the United Kingdom, the United States, South Africa and Hong Kong (text of relief granted is available at: http://www.sec.gov/Archives/edgar/data/1230869/999999999713009907/filename1.pdf).

5. Retirement plans

The Company has recorded a liability for retirement benefits due to retired directors and one current director upon retirement. The liability for these benefits at February 28, 2015 and February 28, 2014 was \$584,806 and \$613,580, respectively. A director whose first election to the Board of Directors was prior to January 1, 2008 qualifies to receive retirement benefits if he has served the Company (and any of its predecessors) for at least twelve years prior to retirement. Directors first elected on or after January 1, 2008 are not eligible to participate in the plan.

Three months ended February 28, 2015 and 2014

6. Concentration risk

The Company invests at least 80% of its total assets in securities of companies engaged, directly or indirectly, in the exploration, mining or processing of gold or other precious minerals. The Company also invests a substantial portion of its assets in companies that are domiciled and/or have operations outside of the United States, including emerging market countries, such as South Africa. The Company is, therefore, subject to gold and precious metals related risk as well as risk related to investing in foreign securities, including political, economic, regulatory, liquidity, currency fluctuation, and foreign exchange risks. The Company currently is invested in a limited number of securities and thus, holds large positions in certain securities. Because the Company's investments are concentrated in a limited number of securities of companies involved in the holding or mining of gold and other precious minerals and related activities, the net asset value of the Company may be subject to greater volatility than that of a more broadly diversified investment company.

7. Indemnifications

In the ordinary course of business, the Company enters into contracts that contain a variety of indemnification provisions. The Company's maximum exposure under these arrangements is unknown.

8. Compensation matters

For the three months ended February 28, 2015 and February 28, 2014, the aggregate remuneration paid to the Company's officers was \$821,350 and \$855,325, respectively. In addition, \$232,000 and \$255,009, respectively was accrued for bonuses to the Company's officers and employees. The accrued bonuses are reflected in the "Accrued affiliated expenses" on the Statements of Assets and Liabilities. The aggregate remuneration paid to the Company's directors was \$54,500 and \$53,500, respectively.

9. Operating lease commitment

In November 2012, the Company entered into a five-year operating lease agreement in San Mateo, CA for approximately 2,500 square feet to be used as office space for its employees. The lease provides for future minimum rental payments in the aggregate amount of \$378,472 as of February 28, 2015. The lease contains escalation clauses relating to the tenant's share of insurance, operating expenses and tax expenses of the lessor.

Future minimum rental commitments under the lease are as follows:

03/1/15-11/30/15	\$ 91,839
12/1/15-11/30/16	125,206
12/1/16-11/30/17	128,953
12/1/17-02/28/18	 32,474
Total	\$ 378,472
Total	\$ 378,472

10. Share repurchase

The Company may from time to time purchase its common shares at a discount to NAV on the open market in such amounts and at such prices as the Company may deem advisable.

The Company had 19,289,905 shares outstanding as of February 28, 2015 and February 28, 2014. There were no repurchases during the three months ended February 28, 2015 and 2014.

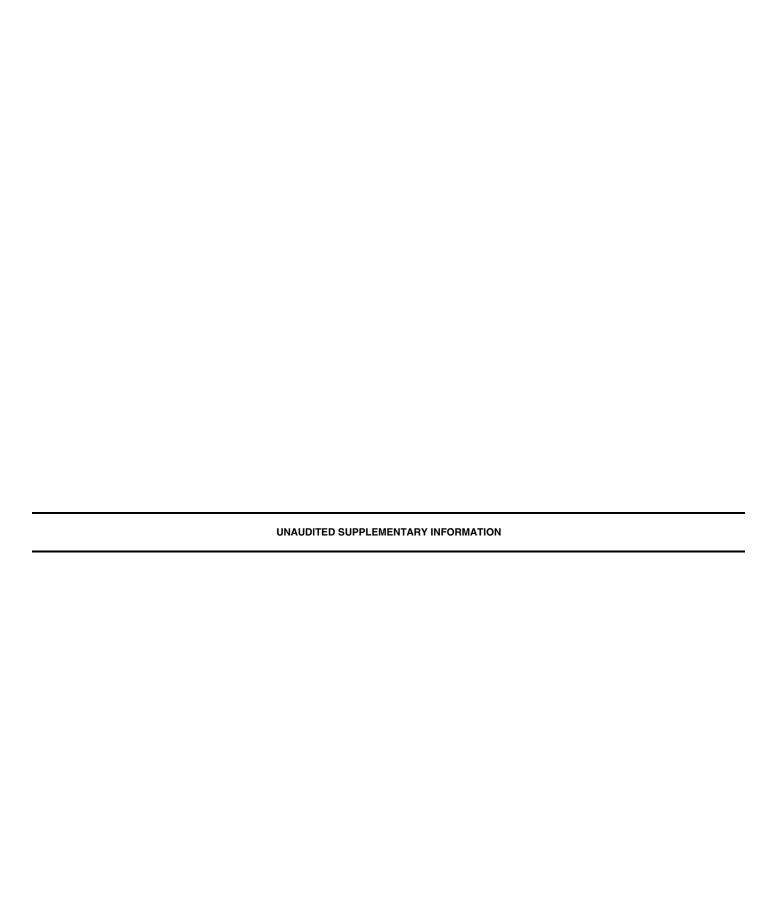

11. Legal proceedings

On September 30, 2013, Firsthand Technology Value Fund, Inc. ("Plaintiff") filed a lawsuit in California Superior Court against the Company and one of its then-independent directors Phillip Goldstein ("Co-Defendant"). Plaintiff alleged, among other things, intentional interference with contractual relations and unfair competition in violation of the California Business and Professions Code. On November 19, 2013, pursuant to its indemnification policy for directors and officers, the Company entered into an agreement to advance legal defense costs to its Co-Defendant. The Company filed a claim with its insurance carrier for coverage of related legal expenses and costs for the Company and its Co-Defendant. The insurance carrier reimbursed a portion of the amounts claimed before the end of fiscal year 2014. Plaintiff dismissed the Company from the lawsuit on April 14, 2014 (and subsequently dismissed the Co-Defendant). The Company did not enter into any settlement with the Plaintiff in exchange for its dismissal.

Three months ended February 28, 2015 and 2014

12. Subsequent events

In accordance with U.S. GAAP provisions, management has evaluated the possibility of subsequent events existing in the Company's financial statements through the date the financial statements were issued. The Company believes that there are no material events that would require disclosure.
