Notes to Financial Statements

Three months ended February 28, 2023

1. Organization

ASA Gold and Precious Metals Limited (the "Company") is a non-diversified, closed-end investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act").

The Company was initially organized as a public limited liability company in the Republic of South Africa in June 1958. On November 11, 2004, the Company's shareholders approved a proposal to move the Company's place of incorporation from the Republic of South Africa to the Commonwealth of Bermuda by reorganizing itself into an exempted limited liability company formed in Bermuda. The Company is registered with the Securities and Exchange Commission (the "SEC") pursuant to an order under Section 7(d) of the 1940 Act.

The Company seeks long-term capital appreciation primarily through investing in companies engaged in the exploration for, development of projects or mining of precious metals and minerals. The Company is managed by Merk Investments LLC (the "Adviser").

2. Summary of significant accounting policies

The following is a summary of the significant accounting policies:

A. Security valuation

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the "NYSE") on the date for which the valuation is being made (the "Valuation Time"). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available.

Pursuant to Rule 2a-5 under the Investment Company Act, the Company's Board of Directors (the "Board") has designated the Adviser, as defined in Note 4, as the Company's valuation designee to perform any fair value determinations for securities and other assets held by the Company. The Adviser is subject to the oversight of the Board and certain reporting and other requirements intended to provide the Board the information needed to oversee the Adviser's fair value determinations. The Adviser is responsible for determining the fair value of investments in accordance with policies and procedures that have been approved by the Board. Under these procedures, the Adviser convenes on a regular and ad hoc basis to review such investments and considers a number of factors, including valuation methodologies and unobservable inputs, when arriving at fair value. The Board has approved the Adviser's fair valuation procedures as a part of the Company's compliance program and will review any changes made to the procedures.

Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued at a value other than the last reported sale price or last reported bid price based on significant events that have occurred subsequent to the close of the foreign markets. Shares of non-exchange traded open-end mutual funds are valued at net asset value ("NAV"). To value its warrants, the Company's valuation designee typically utilizes the Black-Scholes model using the listed price for the underlying common shares. The valuation is a combination of value of the stock price less the exercise price, plus some value related to the volatility of the stock over the remaining time period prior to expiration.

Securities for which current market quotations are not readily available are valued at their fair value as determined in accordance with procedures approved by the Board. If a security is valued at a "fair value," that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

The difference between cost and market value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

B. Fair value measurement

In accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on

Three months ended February 28, 2023

2. Summary of significant accounting policies (continued)

B. Fair value measurement (continued)

market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for identical instruments on an inactive market, prices for similar investments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3 Unobservable inputs for the assets or liability to the extent that relevant observable inputs are not available, representing the Company's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of February 28, 2023 in valuing the Company's investments at fair value:

Measurements at February 28, 2023						
	Level 1		Level 2		Level 3	<u>Total</u>

Investment in Securities ⁽¹⁾ Measurements at February 28, 2023

(1) See schedule of investments for country classifications.

Three months ended February 28, 2023

2. Summary of significant accounting policies (continued)

B. Fair value measurement (continued)

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value.

	Co	mmon Stock	Rights		Warrants	
Balance November 30, 2022 Purchases	\$	2,511,245 183,217	\$	96,088 -	\$	5,939,911 83,766
Sales Realized loss Net change in unrealized appreciation		-		-		- (85,968)
(depreciation) Balance February 28, 2023	\$	(42,396) 2,652,066	\$	(8,970) 87,118	\$	17,356 5,955,065
Net change in unrealized appreciation (depreciation) from investments held as of February 28, 2023*	<u>\$</u>	(42,396)	<u>\$</u>	(8,970)	<u>\$</u>	17,356

* The change in unrealized appreciation/(depreciation) is included in net change in unrealized appreciation/(depreciation) of investments in the accompanying Statement of Operations.

Significant unobservable inputs developed by the valuation designee for Level 3 investments held at February 28, 2023 are as follows:

Asset Categories	sset Categories Fair Value		Valuation Technique(s)	Unobservable Input	Range (Weighted Average)	
Common Shares ¹	\$	2,652,066	Transaction cost	None	None	
Rights ²		87,118	Market transaction	Discount	70% (70%)	
Warrants ³		5,955,065	Black Scholes Method	Volatility	20% - 50% (38%)	

¹ Fair valued common stocks with no public market are valued based on transaction cost and may be adjusted by the valuation designee, including for subsequent known market transactions.

² Fair valued rights are valued based on the specifics of the rights at a discount to the market price of the underlying security.

³ Warrants are priced based on the Black Scholes Method; the key input to this method is modeled volatility of the investment; the lower the modeled volatility, the lower the valuation of the warrant.

C. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange reported by independent data providers. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The portion of the results arising from changes in the exchange rates and the portion due to fluctuations arising from changes in the market prices of securities are not isolated. The resulting net foreign currency gain or loss is included on the Statements of Operations. Realized foreign currency gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Company's books and the U.S. dollar equivalent of the amounts actually received or paid.

D. Securities Transactions and Investment Income

During the three months ended February 28, 2023, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$3,728,862 and \$3,171,760, respectively.

Three months ended February 28, 2023

2. Summary of significant accounting policies (continued)

D. Securities Transactions and Investment Income (continued)

As of February 28, 2023, a significant portion of the Company's assets consisted of securities of junior and intermediate mining company issuers.

Dividend income is recorded on the ex-dividend date, net of withholding taxes or ADR fees, if any. Interest income is recognized on the accrual basis.

E. Dividends to Shareholders

Dividends to shareholders are recorded on the ex-dividend date. The reporting for financial statement purposes of dividends paid from net investment income and/or net realized gains may differ from their ultimate reporting for U.S. federal income tax purposes, primarily because of the separate line item reporting for financial statement purposes of foreign exchange gains or losses.

F. Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is management's opinion that all adjustments necessary for a fair statement of the results of the interim periods presented have been made. All adjustments are of a normal recurring nature.

G. Basis of Presentation

The financial statements are presented in U.S. dollars. The Company is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification, Topic 946 "Financial Services - Investment Companies".

H. Income Taxes

In accordance with U.S. GAAP requirements regarding accounting for uncertainties on income taxes, management has analyzed the Company's tax positions taken on federal and state income tax returns, as applicable, for all open tax years (2019-2022). As of February 28, 2023, the Company has not recorded any unrecognized tax benefits. The Company's policy, if it had unrecognized benefits, is to recognize accrued interest and penalties in operating expenses.

3. Tax status of the Company

The Company is a "passive foreign investment company" ("PFIC") for U.S. federal income tax purposes and is not subject to Bermuda tax as an exempted limited liability company organized under the laws of Bermuda. Nor is the Company generally subject to U.S. federal income tax, since it is a non-U.S. corporation whose only business activity in the United States is trading in stocks or securities for its own account; under the U.S. federal tax law that activity does not constitute engaging in the conduct of a trade or business within the United States, even if its principal office is located therein. As a result, its gross income is not subject to U.S. federal income tax, though certain types of income it earns from U.S. sources (such as dividends of U.S. payors) are subject to U.S. federal withholding tax.

4. Fees and Expenses and Other Transactions with Affiliates

Investment Adviser – Merk Investments LLC (the "Adviser") is the investment adviser to the Company. Pursuant to an investment advisory agreement, the Adviser receives an advisory fee, payable monthly, from the Company at an annual rate of 0.70% of the Company's average daily net assets.

The Adviser voluntarily agreed to waive a portion of its advisory fee, equal to an annual rate of 0.05% of the Company's net assets exceeding \$300 million, and an additional 0.10% of the Company's net assets exceeding \$500 million. The Adviser waived \$5,352 for the three months ended February 28, 2023.

Other Service Providers – Apex US Holdings LLC (d/b/a Apex Fund Services) ("Apex") provides fund accounting, fund administration and compliance services to the Company. The fees related to these services are included in fund services fees within the Statement of Operations. Apex also provides certain shareholder report production and EDGAR conversion and filing services. Pursuant to an Apex services agreement, the Company pays Apex customary fees for its services. Apex provides a Principal Financial Officer, as well as certain additional compliance support functions.

Foreside Fund Services, LLC, a wholly owned subsidiary of ACA Group, provides a Chief Compliance Officer to the Company.

Three months ended February 28, 2023

5. Exemptive order

The Company is a closed-end investment company and operates pursuant to an exemptive order issued by the Securities and Exchange Commission (the "SEC") pursuant to Section 7(d) of the 1940 Act (the "Order"). The Order is conditioned upon, among other things, the Company complying with certain requirements relating to the custody of assets and settlement of securities transactions outside of the United States different than those required of other registered investment companies. These conditions make it more difficult for the Company to implement a flexible investment strategy and to fully achieve its desired portfolio diversification than if it were not subject to such requirements.

6. Retirement plans

The Company has recorded a liability for retirement benefits due to retired directors. The liability for these benefits at February 28, 2023 was \$370,604. A director whose first election to the Board of Directors was prior to January 1, 2008 qualifies to receive retirement benefits if he has served the Company (and any of its predecessors) for at least twelve years prior to retirement. Directors first elected on or after January 1, 2008 are not eligible to participate in the plan.

7. Indemnifications

In the ordinary course of business, the Company enters into contracts that contain a variety of indemnification provisions. The Company's maximum exposure under these arrangements is unknown.

8. Share repurchase

The Company may from time to time purchase its common shares at a discount to NAV on the open market in such amounts and at such prices as the Company may deem advisable.

The Company had 19,289,905 shares outstanding as of February 28, 2023. There were no repurchases during the three months ended February 28, 2023.

9. Subsequent events

In accordance with U.S. GAAP provisions, management has evaluated the possibility of subsequent events existing in the Company's financial statements through the date the financial statements were issued. The Company believes that there are no material events that would require disclosure.
